## Proceedings of the Town Council

The regular meeting of the town council held on Thursday night last was attended by Mayor Ewan, Councillors McLeod, McDonald, Morency, Montalbeti and Rose, and Secretary Wright.

Patterson & Co. tendered for the office of auditors for the town for the year 1919 at the same fee as last year.

An anonymous communication was read to the meeting, which suggested that the office of chief of police be dispensed with, and that a collector be appointed for the town, was assigned to the W. P. B.

By-Law No. 65, appointing officials for 1919, was introduced and duly passed. Appointments were made as follows:

F. Wright to be Secretary-treasurer for the year 1919 at the same rate of salary as last year.

James M. Carter to be chief of police, license inspector, sanitary inspector, pound keeper, cemetery officer, health inspector, fire chief, waterworks superintendent, collector, etc., at the same salary as last year.

Dr. James Oliver to be medical health officer for the year at a retainer of \$250.00.

Patterson & Co. to be town auditors at the same fee as last year.

Councillor Rose suggested the appointment of a legal advisor for the council, but it was decided to leave this office open until the next meeting, so that in the meantime the councillors will have an opportunity of feeling the pulse of our three legal lights and make recommendations at the next meeting.

Councillor Morency gave notice that at the next regular meeting of the council he would introduce a by-law to amend the town's license by-law.

Councillors McDonald and Morency asked the council for a settlement of their accounts, which had been outstanding for some time, owing to the chairman of the health and relief committee. Councillor McLeod, refusing to ask the accounts. Councillor McDonald made an explanation to clear the atmosphere of a misunderstanding in regard to his account in connection with services as special constable during the flu period. His account was for \$306, made up as follows: 24 days for self and car at \$10 per day \$240; 11 days at \$6 per day, \$66—total \$306. For the twenty-four days \$10 per day covered hire of car, gasoline, oil and own wages. For the latter eleven days \$6 was to cover car and man, gasoline and oil being charged to the town. An impression had been circulated to the effect that McDonald was demanding \$16 per day for himself and car, which for the thirty-five days would have totalled \$560. To overrule Chairman McLeod, it was decided on motion by Morency-Montalbeti, that the account be referred to the finance committee for settlement. The account of Councillor Morency was a similar one.

Councillor Morency asked if the secretary could produce a statement showing some of the business transacted by the old council, which was in accordance with the wishes of the ratepayers. Secretary promised to provide such statement as may be required for consideration at next meeting.

Frank Palm, a Finlander, appeared on behalf of the Holloppa family and appealed to the council to settle an account for nursing the family as presented to the council at a recent meeting, and which the council had decided to ignore.

The council, on motion, decided to ignore the account of Mrs. Sora. On motion by McDonald-Morency, the account of Julia Calhaine was left over to be considered at next meeting.

McLeod-Montalbeti—That all standing by-laws of the town respecting licenses or other fees payable by proprietors of business places or other undertakings in the town, be strictly enforced, and that the Secretary-Treasurer be instructed to demand payment of all arrears on same to the end of 1918, and to present to the Council at the next meeting a list of all who have not complied with his request, together with amount owing by them; this to include the business tax levied in 1917. Carried.

McLeod-Montalbeti—That the Council hereby records its appreciation of the very effective manner in which the Chief of Police and Secretary-Treasurer handled their departments during the recent influenza epidemic, and that they each be granted an honorarium of \$25 in recognition of same. Carried.

McDonald-Morency—That the Secretary be instructed to purchase four hundred meter cards, in accordance to draft submitted. Carried.

Louis Boldovina asked that a light be placed near his residence between the first and second steel bridges east of town. Matter was left with the health committee to look into.

J. J. Murray, C. Sartoris, R. H. Moore, A. I. Blais, D. Dunlop and other residents of Frank asked to be hitched on to the light line. Light committee will report.

W. L. Evans, of Bellevue, who proposes erecting an auto garage on Victoria Street, just east of Seventh Avenue, asked permission of the Council to install a gasoline service tank near the street line. Works and Property Committee will report.

It was decided to take definite steps to collect all dog taxes.

The medical health officer reported having visited the local school and examined the pupils, finding a very healthy situation existing.

The health inspector reported that only seven cases of flu were now being treated and that in a few days the disease would likely be stamped out. He favored the use of house placards as a precaution against further spread.

The Council asked the mayor to make recommendations for members of the town health board. Mayor promised to submit names at next meeting for consideration of the Council.

The following letter was read to the Council and ordered filed:

Customs Canada,  
Port of Blairmore,  
January 21st, 1919.

To the Mayor, The Town of Blairmore.  
Sir:—I wish to inform you that the town policeman has nothing to do with the Customs Office in Blairmore. This is the second time that Mr. Carter has taken upon himself to interfere in this office and I will not have it.

Yesterday I was informed that I must make some arrangements with regard to my residence, as he had seen him carrying coal to the Customs Office and that if I did not, he would report me. I replied to report just as he knew how, and further that I was not aware that the customs had done the above mentioned task and that a boy to do it for him and I thought he was foolish to do it.

He then said that he was to make the very affairs which is to do with the law and I replied that I got it from proper authorities.

Yours very truly,  
C. F. BRAW,  
Sole Collector.

## Allies Obligated to Protect Russia

Reason British Troops Have Been Sent to Europe

London. — In reply to a letter received from a correspondent, Viscount Milner, the secretary of war, gave the reason why British troops were sent to Russia. The cabinet member goes over the situation created by the success of the Bolsheviks in gaining control of Russian affairs, and points out how their actions were adversely affecting the cause of the allies in the west and otherwise hampering the winning of the war by the allied nations.

"You ask me," said Viscount Milner in his letter, "what right we have had in sending British troops to Russia to meddle with the internal affairs of that country, and how long we mean to keep them there now that the war is over."

"The question shows that you misapprehend the situation, as well as the motives of the government. There are also other allied forces in Russia—indeed the British are only a small proportion of the total allied troops. The Bolsheviks want for their ultimate object, were in fact, assisting our enemies in every possible way. It was owing to their action that hundreds of thousands of German troops were let loose on the western front. It is owing to their betrayal that Rumania, with all its resources, of grain and oil, fell into the hands of the Germans."

"It was they who handed over the Black Sea fleet to the Germans, and who treacherously attacked the Czechoslovaks when the latter only desired to get out of Russia in order to fight for the freedom of their own in Europe. Every one of them were most anxious to see the Bolsheviks in Russia, but it was an obligation of honor to save the Slovaks, and it was military necessity of the most urgent kind to prevent those vast portions of Russia which were struggling to escape the tyranny of the Bolsheviks from being overrun by the forces of Charles the First."

"To have nothing of the military stores and property of the allies, which were sent to Russia, to be appropriated by the Bolsheviks, would have been a disaster of the first magnitude."

"And this intervention was successful. In 1918, the Bolsheviks were driven from power, and the sources of Siberia and southern Russia were denied to the enemy, as the ports were prevented from becoming bases for German submarines from which our North Sea barrage could have been turned."

"These were important achievements to the defeat of Germany. I say nothing of the fact that vast portions of the German army, numbering millions of people, had to be taken into the hands of the allies. In the course of this allied intervention, thousands of German soldiers were taken as prisoners of war on the side of the allies."

"How can we, simply because our own immediate purposes have been served, come away and leave them to the tender mercies of the Bolsheviks, even before they had time to arm, train and organize themselves, enough to defend themselves?"

"You may be quite sure that the last thing the government would wish to do is to leave any British soldiers in Russia, any longer than is necessary to discharge the moral obligations we have incurred, and that, I believe, is the guiding principle of all the allies."

"If the allies were all to scramble out of Russia at once, the result would be a disaster to the cause of the allies, which at present rests in a great degree on the country would spread over the whole of it, including the vast regions of northern and central Asia, which were included in the dominion of the czar. The ultimate consequences of such a disaster cannot be foreseen, but they would assuredly develop a far greater strain on the resources of the British empire than our present commitments."

**Goods to Be Clearly Marked**  
Melbourne. — The Victoria legislative assembly has passed a bill requiring that all goods be marked clearly with the name of the country of origin. The bill provides that German goods, after passing the customs, being labelled "Made in Australia," and goods improperly labelled are liable to be forfeited and also to substantial fines.

## Reports Intended To Hurt Nation

Polish Editor Says Jews Launch Spies for a Purpose

Warsaw. — In discussing the political situation in Poland, especially as regards the Jews, Professor T. Tuterlich, Polish editor and writer, said: "The present program aimed at being seized upon by the Jews, at the expense of the Polish nation, for the purpose of influencing the peace congress. The Jews expect to obtain nationality concessions. It is political. What they really propose to do, through their nationalistic party, is not only to get schools but to have their own courts of justice and also their own parliament. They really wish to form a state within a state, yet they intend also to take over the political life. It is absurd."

"They are now interfering with our new government—and attempting to divide our political parties. There are few Jewish parties. The largest is the orthodox but the socialist party, which is divided into Bolshevik and radical, is very active."

"As for the pogroms the situation is greatly propaganda. For instance, two months ago I was in Cracow and I read in the newspapers that there had been pogroms in Warsaw. When I returned I found that the only foundation of the story was that there had been war between two butchers, one a Jew and one a Christian."

"However, for the past ten years the Jews have been publishing broadcast throughout the world the statements about Polish pogroms, which was ungrateful when it is considered how helpless the Poles, so long as Poland among the nations, have been. We never attempted to drive out the Jews."

## Punished For Aiding Armenians

Rep. enatives of Mission Board Thrown Into Jail by Turks

Salomiki. — Turkey's hostility towards relief of the Armenian and Syrian refugees has been expressed in a strikingly brutal manner. The experience of Charles D. Wilson, executive secretary of the American Syrian relief committee at Beirut, Lebanon, is a case in point. Wilson, who had been in the country for some time, was arrested and thrown into jail without food or water for several days.

"I was taken to a prison where I was kept without food or water for several days. I was then taken to a court where I was accused of aiding the Armenians. I was then thrown into jail again, where I was kept for several more days."

"The Turkish government is determined to punish those who aid the Armenians. I was not the only one. Several other members of the American Syrian relief committee were also arrested and thrown into jail."

## New Plans Relieve Anxiety

Wilson Goes to Britain Bent on Maintaining Unity

London. — Without doubt the announcement of President Wilson's visit to London has greatly relieved the uneasiness of the British people. It is felt that a "dramatic change of plans can only mean that he comes as a friend bent on maintaining Anglo-Saxon unity rather than further widening the already dangerous divergences of policy regarding sea power. Canada occupies a position both happy and responsible of being able to interpret to either party what may even fortify and even elucidate in the language of the other, and therefore it is not surprising that Borden will remain in London, abandoning this Christmas forage he had promised himself with the Canadian corps."

"It is useless to disguise the fact that grave anxiety as to the Anglo-American negotiations in connection with the freedom of the seas threatened to cast a shadow over the holiday. A well-known British publicist spoke to us as follows:

"We must recognize that elements exist for tension between Britain and America more strained than since the Venezuelan message, and of which a watchful enemy is waiting to make the most. The president's endorsement of the theory of the 'new world' program was received with dismay by our people, mistakenly or not, as throwing down the gage, and there was danger that we might pick it up in the same spirit. One can only surmise from the changes in the president's plans that what he has seen has modified his views and he comes to study our case at first hand and to seek a common ground along which the two great branches of the Anglo-Saxon dominion may advance in union towards world peace and the safeguarding of civilization. He will receive a hearty and sincere welcome and will learn how the Canadian people are anxious to see the world at peace."

## SUNDAY SCHOOL LESSON

LESSON FOR JANUARY 5 — PHARAOH OPPRESSES ISRAEL

The Book from which the text is taken is a continuation of the story of the chosen people. Its central theme is redemption—the deliverance of Israel from bondage and their separation unto God. The question of the relationship from Egyptian bondage is a type of our own redemption from sin's bondage (1 Corinthians 5:7). Pharaoh represents the devil, and Egypt the world.

1. The Increase of the Chosen Seed (4:3).  
After Joseph's death Israel quickly grew into a nation. This increase was the fulfillment of Genesis 35:11, which promise was repeated to Jacob before he lay in his grave (Genesis 49:23). If it be the problem of how a little company of seventy persons could become an host of six hundred thousand men in so short a time, let us remember that "God promised it, and all difficulties will be solved. There is a time coming when there shall be another amazing increase in Israel (Ezekiel 36:10, 11, 37:31, 37:26).

2. A New Dynasty (4:8-10).  
This is elevation in Egypt was during the reign of the Hyksos kings. Being of Semitic origin they were not hostile to the Hebrews, but when there "arose up a new king which knew not Joseph" (v. 8) the amazing growth of the Israelites excited his jealousy and he sought to destroy them (v. 9, 10). This fear was two-fold: (1) In case of war they might join the enemy and fight against them. (2) Lest they should remove from the land, thus cutting off a vital source of revenue and exposing to danger the eastern border of the land.

3. Measures to Check the Growth of Israel (1:11-12).  
These measures place on exhibition the fully worldly wisdom of Pharaoh (verses 3:19-21). Their fatal mistake was that they left God out of their calculations. God had promised that Israel should be a great nation (Genesis 15:13-14). Pharaoh's policy was to check the growth of Israel by increasing the number of their slaves and by making their lives bitter with hard labor (v. 11). He also sought to destroy them by casting their children into the Nile (v. 12).

4. The Growth of Israel (1:13-14).  
Despite the measures of Pharaoh, the Israelites multiplied exceedingly. This was due to the fact that God was with them and they were fruitful and increased rapidly, and the land was filled with them (v. 13). The growth of Israel was a sign of God's blessing upon them and a proof of His faithfulness to His promise.

5. The Plagues of Egypt (1:15-16).  
The growth of Israel was a threat to the power of Egypt. Pharaoh sought to destroy them by sending the plagues upon Egypt. The plagues were a judgment upon Pharaoh for his hardness of heart and a sign of God's power over the gods of Egypt. The plagues were: (1) The Nile turned to blood (v. 15). (2) Frogs (v. 26). (3) Lice (v. 33). (4) Flies (v. 40). (5) Livestock killed (v. 46). (6) Boils (v. 47). (7) Hail (v. 48). (8) Locusts (v. 49). (9) Darkness (v. 50). (10) Death of the firstborn (v. 51).

6. The Death of the Firstborn (1:17-18).  
The death of the firstborn was the final plague upon Egypt. It was a judgment upon Pharaoh for his hardness of heart and a sign of God's power over the gods of Egypt. The death of the firstborn was a great loss to Egypt, and it was a sign of God's power over the gods of Egypt.

7. The Passover (1:19-20).  
The Passover was a feast of remembrance for the Israelites. It was a feast of thanksgiving for God's deliverance of them from Egypt. The Passover was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise.

8. The Exodus (1:21-22).  
The Exodus was the deliverance of the Israelites from Egypt. It was a great event in the history of the Israelites and a sign of God's power over the gods of Egypt. The Exodus was a sign of God's faithfulness to His promise and a sign of His love for His people.

9. The Journey to the Promised Land (1:23-24).  
The journey to the Promised Land was a long and difficult journey. It was a journey of faith and a journey of obedience. The journey to the Promised Land was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise.

10. The Conquest of the Promised Land (1:25-26).  
The conquest of the Promised Land was a great victory for the Israelites. It was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise. The conquest of the Promised Land was a sign of God's love for His people and a sign of His faithfulness to His promise.

11. The Building of the Tabernacle (1:27-28).  
The building of the Tabernacle was a great work of the Israelites. It was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise. The building of the Tabernacle was a sign of God's love for His people and a sign of His faithfulness to His promise.

12. The Journey to the Promised Land (1:29-30).  
The journey to the Promised Land was a long and difficult journey. It was a journey of faith and a journey of obedience. The journey to the Promised Land was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise.

13. The Conquest of the Promised Land (1:31-32).  
The conquest of the Promised Land was a great victory for the Israelites. It was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise. The conquest of the Promised Land was a sign of God's love for His people and a sign of His faithfulness to His promise.

14. The Building of the Temple (1:33-34).  
The building of the Temple was a great work of the Israelites. It was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise. The building of the Temple was a sign of God's love for His people and a sign of His faithfulness to His promise.

15. The Journey to the Promised Land (1:35-36).  
The journey to the Promised Land was a long and difficult journey. It was a journey of faith and a journey of obedience. The journey to the Promised Land was a sign of God's power over the gods of Egypt and a sign of His faithfulness to His promise.

## Manitoba Winter Fair

Decide to Hold Next Livestock Show at Brandon

Brandon, Man. — At the annual meeting of the Manitoba Winter Fair and Fat Stock Association, the date for the next winter fair was set for March 3 to 8, inclusive. A thorough revision of the prize list occupied considerable time, and taking advantage of the fact that the great war is now over, the prize list was greatly extended in view of making the big livestock event better and bigger than ever.

The executives of the four livestock associations, the Manitoba Horse, Cattle, Sheep and Swine associations, met in session recently. Each association met separately and held their individual business sessions. At night a joint session was held, when they prepared their program for the Western Livestock Union convention on Jan. 6, 7 and 8.

During the winter fair the cattle breeders will hold their annual sale, to which, as was the case last year, females will be admitted. One breeder will also hold a sale of breeding stock, and another will hold their sale of breeding stock.

## International Labor Conference

Will Be Held at Lausanne, Switzerland, Opening January 6

London. — P. M. Draper, secretary of the Trades and Labor Congress of Canada, who is attached to the Canadian peace mission, has been in consultation with Arthur Henderson and the executive of the Labor party with regard to the international working class conference, which is to be held shortly.

The original idea was that this meeting should be held concurrently with the peace conference and at the same place, but the allied governments have intimated that, while there is no objection to the conference, it cannot be held on allied soil, as it will be attended by delegates from enemy countries. The conference will be held at Lausanne, Switzerland, opening Jan. 6, and lasting until the 15th.

The English representation to this conference will be ten, representing the Trades Union Congress, and the Labor party. Among the British representatives will be Messrs. Thomas Clynes, Bowerman, Henderson, MacDough, Stuart, Bunning and Mrs. Snowden.

Canada's representation at the conference is limited to two. Mr. Draper was appointed delegate at the last Trades and Labor Congress in Canada and will attend.

If Canada sends another delegate he will be either J. C. Watters, of Ottawa, or Gustav Granec of Montreal. The basis of discussion at the conference will be the immediate cessation of war and the establishment of a permanent peace.

The conference will be held at Lausanne, Switzerland, opening Jan. 6, and lasting until the 15th. The conference will be held at Lausanne, Switzerland, opening Jan. 6, and lasting until the 15th.

### Go On Forever!

A newspaper, like "The Brook" of the post, "goes on forever." At least such is the course of The Enterprise, no matter who, nor how many old friends may fall away from its subscription list, there is always a gain from new subscribers. Some months ago, we offended an esteemed subscriber, because we would not print in our columns an original story written by a member of his family, and which he affirmed was as good as many stories he had read in The Enterprise. The result was our indignant subscriber stopped The Enterprise, and influenced his uncles, cousins, and aunts to the number of two to do likewise. That month The Enterprise had a gain of thirty-four new subscribers. This shows how foolish was the effort of our former friend, and how puny the effort of anyone in boycotting the local paper.

### To Deport Undesirable Alien Enemies

Ottawa, Jan. 24.—The Dominion government has decided that all enemy-interested prisoners who may be regarded as dangerous or undesirable shall be repatriated with the least possible delay. The minister of Finance has been authorized under the authority of the War Measures Act to direct the expulsion, removal, or deportation from Canada of all undesirable interned aliens. It has been ascertained through the colonial office that repatriation is now possible of a number not exceeding 100 adult males. A report from the director of internment operations shows that there are at various camps throughout Canada 222 enemy aliens, of whom 1700 are Germans and the remaining 522 Austrian and other enemy nationalities. Practically all of them belong to the laboring classes. Of these 222, 200 were captured from the West Indies and are held at the request of the British government. Inquiries will at once be made of the British government as to what disposition is to be made of the 200 men who were transferred from the West Indies. The property of interned prisoners will

remain subject to the regulations and powers employed at present. Repatriation or ultimate disposal of such property will depend upon the stipulations of the treaty of peace. In case of the money of prisoners there may be paid to each prisoner more than deportation a sum not exceeding \$75 as a provision for travelling expenses.

A bill will be introduced in the Quebec legislature prohibiting the intermarriage of cousins to cousins.

Rev. J. A. Peacock has resigned the Methodist mission work at Pincher station to return to work of the church in Eastern Canada.

A grand dance will be given in the Blairmore opera house on the night of Friday, February the 7th, under the auspices of the Blairmore Sport Club.

Joseph A. Campbell has been convicted of the murder of Sam Zappier at Edmonton on October 17th last, and was yesterday sentenced to hang on April 23rd.

The war has placed on Canada a debt of two billion dollars, or \$250 per head of the population. Supporting widows, and assisting disabled men will cost \$800,000,000.

Rev. J. P. Westman, well known field secretary of Sunday schools for Alberta and British Columbia, has been appointed to a similar position for the province of Saskatchewan.

Sir John Eaton opened the Salvation army campaign in Toronto with a subscription of \$5,000. The Salvationists might thank some of the people of the Crow's Nest Pass for the greater portion of that gift.

At the opera house on Saturday night, the grand drawing for the Grafola talking machine, put up by S. Trono, will take place. The draw will be made from a sack containing over twenty-five hundred tickets, the duplicates of which are held by about nine hundred people, so a big crowd is expected.

There has been some revision of the Oddfellows' team who are to play hockey at Coleman on Monday night next. In the list published last week we mentioned several professionals, including ourselves, and these have since been discarded. Following is the lineup: Goal—A. Hamilton; point—G. Francis; point—Marshall Hamilton; right wing—W. H. Chappell; left wing—Fred Grenier; centre—W. Odendahl; rover—A. Moroney; spares, Jack McAndrew and Torrie Hood.

Japan has a neat way of serving refreshments to travellers on trains. One may have handed in at the window a little pot of tea with a bamboo handle and a cup for a lid, a bottle of sterilized milk, brought in a hot water carrier, and two boxes of delicacies, accompanied by a gay paper napkin and chopsticks. A Tokyo magazine says that these usually contain such an appetizing and well-balanced meal as follows: Fried eel, omelette, misuroun, lotus, burdock and peas cooked together, a piece of ginger, a piece of melon cooked in sake, and two slices of laikon prepared in miso. The second box contains hot rice. It seems a great contrast to a sandwich.

### Lizzie On a Rampage

We have heard about a traveller Who's nicknamed "Scotty" Gray. Who is always out for business. From more till end of day. He had a date on Monday. With a guy who lives at Frank. And to get there in a hurry. He'd the first car give a tank.

He seized upon a Lizzie Near the Campbell Hotel, And found sufficient gas to let. To make the trip quite well. But Lizzie wasn't feelin' In good spirits for the run. And for onlookers down the street Would make a little fun.

She did the Highland fling, you bet. As Scotty tried to sing. But Lizzie and Scotty both seemed lost. A whirling and whirling. And down about three blocks or so. She hoped the loop might stop. But hit at Post's car, then stopped. And Scotty yelled "Good night!"

She made a great big plunge right there. And Scotty came out flop. His nerves were disarranged, somehow. He thought he hadn't stopped. But an inquest soon was ordered. Till Scotty's bones got settled and Had ceased their mournful creak.

The verdict will be rendered By friend Smeary, so they say. And it looks as though somebody'll Have a handsome bill to pay. But in the midst of all this gloom There is this gleam of joy. That Scotty and his Lizzie Will come back by and by.

Nathaniel Evans has received his discharge from the military authorities and has started to work at No. 1 mine.

The first of a series of whist drives to be held in the Oddfellows' hall, was pulled off on Friday night and was well attended.

A social was given in the Methodist church on Wednesday evening in honor of Miss B. Williams, who leaves on Friday for Calgary to attend normal school.

The Borne's Anniversary celebration in the Workers' hall was one of the best attended affairs yet given in Bellevue. The program of the concert was of the highest order, the best talent of the Pass having been commissioned. The dance which followed was a swell affair, and general comment is being made on the high-class music rendered by Kerr's special orchestra.

## Supply of Shipping Will Now Soon Be Normal

London. — Referring to a memorandum on the merchant shipping of the world issued by Lloyd's register and the British admiralty, Sir James Wilson, chairman of the central agricultural committee for Scotland, declares that within a few months the supply of shipping for commerce will be over the demand as compared with the pre-war relationship, and freight will fall to a level not much more than double the rates which were current before the war.

He points out that already there has been a rapid fall in freight. He believes that while the present tonnage of the world's merchant steamers is considerably less than in July, 1914, it is larger than it was on an average of five years before the war and will increase rapidly that in a year hence, it will be much larger than ever in the world's history.

Sir James says the resources of most of the European countries have been greatly reduced and it will take some time to reorganize their industrial life so that the demand for the importing of food and raw material into Europe is likely to be for some time less than the pre-war demand.

For the same reason, the quality of manufactured goods exported from Europe is likely for some time to be less than it was before the war, so that although it seems probable that, a few months hence, the supply of shipping for purposes of trade will be greater than the demand, the shipping as compared with the pre-war relation of supply and demand.

## Intervention in Russia May Be Abandoned

Allies Will Not Send Any More Troops to Russia

## Representation Arrangements For Conference

Each of Four Great Powers Will Have Five Seats

London. — The Manchester Guardian believes it has been decided regarding the representation at the peace conference, that each of the four great powers will probably have five seats at the conference, but those will not necessarily always be occupied by the same men.

Dominion representatives, the Guardian understands, will not be in the grand committee of the international conference, but will present their case as small nations before the conference, and will, of course, be in close touch all the time with the imperial cabinet.

The Guardian further understands that the labor will be asked to nominate a representative, but a labor man will probably be asked to go to Paris to sit on one or more of the committees.

British Submarine Carried On to the End

London. — The finest of all tales of the achievement of British submarines in war time, is now completed by the official story, of the sinking of the famous submarine E-14, off the Dardanelles early in 1918, with the loss of her new commander, Lieutenant Commander White and seven of the crew.

The E-14 left Mudros on the evening of January 22, and proceeded up the Dardanelles to search for the Goeben. After diving under submarine nets, she found that the Goeben had been sunk a few hours previously, had gone, so Commander White turned back, keeping sharp lookout for enemy craft.

As the E-14 was returning to Mudros, she was sighted by a German submarine. The E-14 was then attacked and sunk. The German submarine was also sunk.

## Replaced by Republican Guard

Navy Men are Objecting to the New Ruling

Berlin. — The German foreign office and the chancellery adjoining it, which is at present the seat of the government, were blockaded for an hour and a half by a squad of sailors which had been doing guard duty there for the past month.

The navy men who were about to be replaced by a republican soldier guard and sent back to Kiel, objected to the new ruling. As a protest, against the action of the military commander, small squads of sailors attempted demonstrations in the various parts of the down-town districts.

At a guardhouse in the Unter-den-Linden, the sailors clashed with members of the new republican guards. Shots were exchanged and it is reported there were a few casualties.

A wall bullet entered the classroom in the University of Berlin, but no damage was done. The presence of the sailors in Berlin has been a source of dissatisfaction among the troops returning from the front and friction frequently is taking place. Suspicion also is general that the bluecoats have leanings toward the Spartacus group.

Foodstuffs Sent to Finland

Washington. — The steady progress toward the establishment of a popular government in Finland on a comparatively stable basis, free from German control, has received new impetus in a decision by the United States and her allies to furnish that country with foodstuffs for civilian relief.

The shipment of 28,000,000 pounds of foodstuffs to Finland was authorized by the war-trade board, with the approval of the allied governments.

## Want the Kaiser Back

Plan to Re-establish Monarchy in Germany

Berlin. — Royalists have started an active propaganda campaign to win the support of the German and Austrian people for re-establishment of the monarchy.

The movement centres in Bavaria, regarded as the pivotal state of the Austro-German political situation. It is being conducted by the clerical group, who at present are devoting their strongest efforts to the rural populations.

The republicans are convinced that formal establishment of a German republic and election of a president scheduled for the last of this month, or the first of next will effectively end the aspirations of the monarchists.

As a result they are redoubling their effort to combat the monarchist propaganda.

Solt's Successor Favors League

Copenhagen. — Count von Brockdorff-Rantzau, German minister to Denmark, who has just been appointed foreign secretary in succession to Dr. Solt, interviewed by the Berlin correspondent of the Politiken, said he cherished no illusions as to the difficulty of the task confronting him, but declared he had confidence the German people had now taken their own fate into their hands.

The count said his earnest aim would be to achieve a peace based on President Wilson's fourteen points, and thereby secure a league of nations.

## Spain Raising Question of The Return of Gibraltar

## Conditions in Russia are Now Worse Than Ever

Food and Relief Needed to Save Country from Disaster

Seattle. — Charles R. Crane, formerly member of the Ridd commission to Russia, just back from Siberia and the Orient, says: "No one knows anything about Russia; it is a tragedy. There are two things which stand out distinctly which are desperately needed, the absolute need of Russia for relief."

Also who possessed great knowledge of Russia prior to the war and even during her participation in the war, Mr. Crane declared, "could not now give correct views on the country. To supply food and relief and save the country from a dangerous position," he said, "the trans-Siberian railway must be improved and kept in steady operation."

Warsaw. — Two million Russian prisoners, the first thousands of which are slowly passing homeward, are being picked up by the Bolsheviks, for the formation of their new army, all of whom appear to be tainted with Bolshevism and there is danger of this spreading to Poland and Bohemia.

The Boles, are rapidly organizing their own army, around the nucleus of General Pilsudski's phalanxes. The old Polish legion of home-wearers, which are coming home, have no Russian or German sympathy, merely desiring to be left alone.

## War Lords are Hated

Ludendorff is Detested Worst of all by Germans

Berlin. — German peace delegates, it appears, will object to any penalty for the Kaiser which would make of him a national hero. They don't want a "return from Elba."

All the war makers are now unpopular in Germany. With the exception of Field Marshal von Hindenburg, Gen. Ludendorff is the worst hated. The militarists are blamed for the present situation, but the general feeling appears to be "let bygones be bygones."

Sentiment is very bitter toward the Kaiser and crown prince as institutions, but there is little personal feeling against them. Many people feel that the loss of their thrones was sufficient punishment.

Representative Germans expressed a desire to have a national referendum to decide whether or not the Kaiser should be allowed to return to Germany.

The Bolsheviks are another bugaboo. It is becoming more apparent, however that the Spartacists and other extreme radicals are mere puppets in the hands of the British.

The Spartacists are on the verge of being crushed by the German government and the disorder is expected to be a long time in settling down.
